

Do Not Resuscitate feat SHAM

Where am I?
Whats happening to me?
am I still alive?? (*you tell me*)
its as if life keeps wanting the worst of me
well I'm sick of trying sick of smiling
when on the inside Im just trying to tame the monster that torments my soul!
Why should I try so hard to grab the bull by its horns? When I am the bull!
The way I see it its up to the rest of the world to try to hang on to my horns.
If the potential of my life lies in the hate in my heart
than deaths a great place to start!

It's like anything I do is never good enough
No matter how much
HOW MUCH I BLEED
I am killing to breathe
catch a breeze and your feeling me
a broken structure of my enviornment
with a glorified admiremant
where murder grows tireless
time is priceless, but how to spend it righteous?
I don't know what wrong from right is
horns on my head & a halo on my right wrist
life's a risk and I'm a risk
ANYTHING FOR EVERYTHING
take a chance on
ANYTHING FOR EVERYTHING
cuz I'm a hasard, yeah a young nasty bastard
making sense out of my senses is senseless
I got the flame of a Devils apprentice

Am I the Satan to my haven
my 1 true god
or a demon cooking hell with a butchers apron
yo I swear the only joy I get
is watching cold worlds burn
got a voice in my head
telling me its your turn

(Let's watch your world burn)

& if it's hell on earth
than I'm the **DEVIL TO SERVE**
yo I swear there's nothing worst
there's nothing worst there's nothing worst than me

There's nothing worst than me
not even H.I.V.
my street tape taped the streets by they arteries
bottled up my hate
and stab the concrete with an I.V.
got hoof's for feet & I'm a stampede my beliefs
I'm the type of creep that make haters love Police
I dig deep like a grave digga
looking for beauty with in the beast of flame flickers
why should I shut out my enviornment
of jugger naughts and tyrants
fireworks & sirens where I sleep with open eyelids
good men? I don't know any
tummy like a warm hole
half monster half empty

hungry like the 3rd world
& my iris full on envy
this world I live in left me ill
now I make mother nature pop the pill for the thrill
born dead dying to kill
I aint worth reproducing
I'm a nuisance
this is my hell & I'm the fire

Am I the Satan to my haven
my 1 true god
or a demon cooking hell with a butchers apron
yo I swear the only joy I get
is watching cold worlds burn
got a voice in my head
telling me its your turn

(Let's watch your world burn)

& if it's hell on earth
than I'm the DEVIL TO SERVE
yo I swear there's nothing worst
there's nothing worst there's nothing worst than me

Am I the Satan to my haven
my 1 true god
or a demon cooking hell with a butchers apron
yo I swear the only joy I get
is watching cold worlds burn
got a voice in my head
telling me its your turn

(Let's watch your world burn)

& if it's hell on earth
than I'm the DEVIL TO SERVE
yo I swear there's nothing worst
there's nothing worst there's nothing worst than me

Life

No one here with me today
Just as well I like this way
Who am I what is my roll
Where there's life there breath's a soul

I am a stranger to myself
So unsure I fade away
I'm that stranger to myself
How unsure I'll fade away

The rain is falling from the sky
but I just stand here arms out wide
How I want to free the pain
I need to work with head held high again

I am a stranger to myself
So unsure I fade away
I'm that stranger to myself
How unsure I'll fade away

I'm that stranger to myself
How unsure I'll fade away
I'm a stranger to myself
So unsure I fade away
I am a stranger to myself
So unsure I fade away

So unsure I fade away
So unsure I fade away

That's a long way down
That's a long way down
It's time to go, three, two –

Golden Touch

Right, wrong
Right, wrong

Right, wrong
Right, wrong
Right, wrong
crossroads in my life are coming on
Change, how
A feeling deep inside tells me it's now

Change, how
A feeling deep inside tells me it's now
Where is my life heading from now on
Crossroads in my life are coming on
Where is my life heading from now on
Where is my life heading from now on
Where is my life heading
Where is my life heading
Where is my life heading
Where is my life heading

My New Friend

Searching far and wide for many years
Out here is where I belong
Through thick and thin until the dying end
I will find my new friend

Searching far and wide for many years
And out here is where I belong
Through thick and thin until the dying end
I'll find my new friend

I was insane
I feel the rain
Clouds fall from sky
WHY

Level One

Free to go Free to go (repeated)

I freed myself right out of oppression
Maybe I'll go back again
It made an impression
There's something twisted deep in my brain
I'm wanting to tell you
But I can't explain

I need somewhere where no one can find me
Million miles away
I might stay
Set sail move on drop out of this race
Held your hands to you face
Keep doin the same thing

If something out there someone lets me down
I'll be around, I wanna go back now
If something out there someone lets me down
I'll be around, I wanna go back now

Free to go
Free to go
Free to go
Free to go

I freed myself right out of oppression
Maybe I'll go back again
It made an impression
There's something twisted deep in my brain
I'm wanting to tell you
But I can't explain

If something out there someone lets me down
I'll be around, I wanna go back now
If something out there someone lets me down
I'll be around, I wanna go back now
If something out there someone lets me down
I'll be around, I wanna go back now
If something out there someone lets me down
I'll be around, I wanna go back now, now

Free to go
Free to go
Free to go
